

Partnership Proposal for LPG Vendors

Grow Your LPG Sales with AquaGas — Join Kenya's Smart LPG Marketplace

Date

Dear Vendor Team,

We're inviting your business to join AquaGas as a founding vendor partner. AquaGas is a digital marketplace connecting LPG vendors with households and businesses across Nairobi, Kiambu, Machakos, and beyond — letting customers order gas and other household essentials through our app and via WhatsApp, and get it delivered fast.

For vendors, AquaGas is a way to reach more customers, sell more, and run your business more efficiently — without opening new branches or making a significant upfront investment in technology.

What Makes AquaGas Different

Unlike traditional listing services, AquaGas gives you a complete digital sales channel across web and WhatsApp — customers order in minutes, while you manage inventory, pricing, deliveries, and payments from one platform.

Why Partner With AquaGas

- **Reach more customers, with no new branches.** Get discovered by households and businesses ordering online and through WhatsApp, on top of the customers you already serve.
- **A dedicated vendor app and dashboard.** Manage your products, prices, inventory, and incoming orders from your phone or computer — built around how LPG vendors actually operate.
- **Real-time order notifications.** Know the moment a customer orders, so you can confirm and prepare it without delay.
- **Simple onboarding.** Send us your product list and prices — even as a photo or WhatsApp message — and our team will help set up your digital catalogue. No technical experience required.
- **Delivery support.** Use your own delivery team, or tap into AquaGas's own network of vetted delivery riders if you don't have delivery capacity of your own.
- **Secure digital payments.** Customers pay through the app, and every sale is logged automatically — no cash to chase, no manual bookkeeping.
- **Marketing support.** Your business gets visibility through AquaGas's own marketing and promotion, at no extra cost to you.
- **Access to both households and businesses,** including bulk and repeat business customers.

How It Works

1. Register your business on AquaGas.
2. List your LPG products and services (we can help you set this up).
3. Receive customer orders instantly through the vendor app.
4. Confirm the order and prepare it for dispatch.
5. Deliver using your own team, or an AquaGas-approved delivery partner.
6. Get settled for completed orders via mobile money.

Who Can Join

We welcome:

- Licensed LPG distributors
- Gas refill stations
- Gas cylinder exchange businesses
- LPG retailers
- Home delivery gas suppliers

Vendor Requirements

To join AquaGas, your business will need:

- A certificate of business registration
- A valid EPRA licence for the retail/wholesale of LPG in cylinders
- A KRA Tax Compliance Certificate
- A valid Single Business Permit from your county government
- Contact details for your team
- Your physical business location
- A current product catalogue and price list
- Your company logo (optional, for your vendor profile)

If any of these are still in progress, let us know — our team can advise on next steps.

Commission & Payments

There are no signup or listing fees to join AquaGas. Our commission structure is transparent and competitive, with full details shared when you register — so you always know exactly what you're earning on every order. Payments are settled via mobile money on a regular, predictable schedule, so you're not left waiting on cash flow.

A Founding Partner Opportunity

We're inviting a select group of vendors to join as founding partners as AquaGas grows across Kenya. Founding partners get priority visibility with customers and a direct line to our team as we shape the platform together — helping make LPG ordering faster, easier, and more accessible for every household and business we reach.

Founding Partner Benefits

- **No registration fee.** Join as a founding partner at zero cost to get started.
- **Priority placement in search results.** Founding vendors are surfaced first when customers search and browse.
- **A featured vendor profile.** Extra visibility on the app and in AquaGas marketing as a founding partner.
- **Early access to new features.** Try new platform tools before they roll out to everyone else.
- **Dedicated onboarding and support.** Hands-on help getting your catalogue and team set up.
- **A say in what we build next.** Direct input into the features and tools that shape the platform.

Next Steps

Ready to join, or have questions first? Reach us any of these ways:

- Apply online: aquagas.co.ke/partners
- WhatsApp: +254 710 820 666
- Email: info@aquagas.co.ke

Scan to apply online

We look forward to welcoming [Vendor / Business Name] as an AquaGas partner.

Warm regards,

Peter Maina

Founder, AquaGas
